

towermatic T200

SAVE TIME & MONEY.....SAFELY

The towermatic t200 offers a safe, stable work platform at three useful heights. Assisted into position by internal tensioning springs designed to power it's ascent, and control it's descent smoothly and effortlessly.

There are no loose components with the towermatic. The failsafe one-piece design calls for minimal training. The unit which will fit into a shooting brake or truck, unfolds from a compact easily manouvered base and simply locks into place at the desired heights. Adjustable integral outriggers provide additional stability and the ample deck provides space and support for the operative and tools.
