

# towermatic T360

## SAVE TIME & MONEY.....SAFELY

The towermatic T360 offers a safe, stable work platform at three useful heights. Assisted into position by internal tensioning springs designed to power it's ascent, and control it's descent smoothly and effortlessly.

The failsafe design calls for minimal training. The unit which will fit into a large SUV, or truck unfolds from a compact easily manouvered base and simply locks into place at the desired heights. The four heavy duty outriggers provide additional stability and the ample deck provides space and support for the two operatives and their tools.

- ALL ALUMINUM CONSTRUCTION
- FAST & EASY TO ERECT
- THREE HEIGHTS 3FT, 6FT, AND 12FT
- HEAVY DUTY STABILISERS
- COMPACT FOLDING FLAT PACK DESIGN
- ADJUSTABLE LEVELING CASTORS
- LIGHTWEIGHT, EASILY DEPLOYED
- EASY TO TRANSPORT
- SIMPLE OPERATION - MINIMAL TRAINING
- UL PENDING

The T360 is electrically isolated from ground by the use of insulated castor wheels, and insulated pads on the outriggers
